FEATURE STORY - A EUROPEAN WINDOW WELCOMING POTENTIAL STUDENTS PRESENTING ERASMUS+ ADVENTURE

As the festive season approaches, we celebrated the successful **dissemination** of our Erasmus+ project work during a vibrant, one-day exhibition held on our **Open Labs Day**.

While travel mobilities are on pause until the new year, this event transformed our common area in a **European Showcase** designed to inform prospective students and the families about the amazing international opportunities at IIS Bertacchi. Visitors explored a dedicated **Internationalization Corner**, viewing video summaries and examining displays of past mobilities projects. This initiative was a final, crucial step to fulfilling our **knowledge-sharing goals**, successfully ensuring that the innovative techniques gained from partners in all Europe are brought home and implemented by our staff and students. The success of this local showcase proves that our project is about creating a richer, more connected **learning environment** for the entire school community.

We are looking forward to launching the next mobilities in the new year!

HAPPY HOLIDAYS TO ALL OUR STUDENTS AND PARTNER SCHOOLS

As the busy first months of our project draw to a close, it is finally time to embrace the festive atmosphere of the winter holidays! We extend our **warmest wishes** to all our dedicated students, staff, and wonderful Erasmus+ partner schools. May your holiday season be filled with **joy**, **peace**, and **restorative time** with family and friends. We look forward to continuing our journey of cultural exchange and innovation with you all in a bright and exciting **New Year**!

In the meantime, we welcomed back our students from Ireland and got more **postcards** of our collection! We'll get back to you all with their experience in January with a **special edition**.

THE TEAM NEW YEAR'S RESOLUTIONS

- To **set a new record for uninterrupted sleep**: not waking up in a cold sweat in the middle of the night wondering if the partner school in Tenerife has truly confirmed the student's host family availability.
- To **fully accept** that **the 'urgent, must-answer' email** we receive from a student at 3 AM announcing they don't want to come back is not a delirious nightmare but sheer reality.
- To **convince students** that scanned documents must be actual PDF files and not blurry photos of their passport taken in the dark, thereby saving printer ink and one year of life for the coordinators.

Don't miss a single update, photo, or success story!
Follow our journey and share your excitement with us online.
